

# PROJECT ACCOUNTING CODES

Project Accounting Codes (PAC) from Diva Telecom are ideal for companies who need to bill end clients or attribute costs to individual projects within a department. The numeric codes are entered via the chairperson's telephone keypad and appear on your invoice in the PAC column, which allows you to easily bill the call costs to the relevant party or project.

PACs are set by you and where one PAC code is insufficient, you can create 2 PACs by breaking up the code with \* for example: 123456\*654321. This would automatically create 2 PAC columns on your invoice.

PAC's can be up to 19 digits in length; where 2 PAC's are required then there are a maximum of 18 digits allowed to be spread across the 2 columns as described above.

1	Period	PAC1	PAC2	Total Charge (£)
2	May-2018	2144	9010	£29.12
3	May-2018	9010		£20.11
4	May-2018	2144		£5.12
5	May-2018	6312		£3.10
6	May-2018	5561		£0.99
